EDUCATION

NED University of Engineering and Technology

Bachelor of Engineering in Software Engineering,

Karachi, Pakistan

Oct. 2023 – Present

PROJECTS

HomeFit - AR-Based Furniture App | *React Native, Node.js, MySQL, Firebase, Stripe* Oct 2025 – Nov 2025

- Allows users to preview furniture in their living space using AR, ensuring accurate scale and placement.
- Automatically transforms standard 2D images uploaded by sellers into interactive 3D models.
- Integrated Stripe Connect for seamless, secure end-to-end payment processing between buyers and seller
- Features a dedicated web-based admin panel to oversee users, seller accounts, and product listings

Blogger | *Gemini, React.js, Node.js, Express.js, MongoDB, Firebase, ImageKit* Jul 2025 - Jul 2025

- Built a full-stack blogging platform with RESTful API architecture, implemented Firebase Auth with JWT-based session
- Automatically transforms standard 2D images uploaded by sellers into interactive 3D models.
- Integrated Google Gemini AI API for intelligent blog content generation, title suggestions, and content improvement features

NED Events | *React, TypeScript, Node.js, MySQL, Express, Tailwind CSS* Feb 2025 – Apr 2025

- Developed a full-stack event platform with **Role-Based Access Control** for attendees, organizers, and vendors.
- Implemented core features including ticket booking, digital receipts, event filtering, and automated reminders.
- Architected a vendor management module and real-time review system to enhance campus community engagement.

PDF-to-Quiz Generator | *React, Javascript, Gemini API, Tailwind CSS* Feb 2025 - Feb 2025

- AI-driven app that converts PDF into automated summaries and interactive quizzes using the **Gemini API**.
- Developed customizable quiz generation logic for MCQs formats to streamline student revision workflows.
- Designed a lightweight, responsive UI with a "no-login" architecture for immediate user engagement.

CERTIFICATIONS

Introduction to Deep Learning with PyTorch | *DataCamp* January 2026

- Completed a technical certification in Deep Learning focusing on building and training neural networks using the PyTorch framework. (CPE:3)

React JS Web Development - The Essentials Bootcamp | *Udemy* July 2025

- Completed a bootcamp covering the core principles of React.js, JavaScript (ES6+), and modern web development workflows.
- Mastered component-based architecture, state, and hooks to build interactive and responsive user interfaces.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C/C++, SQL, HTML/CSS

Frameworks & Libraries: React, React Native, Next.js, Node.js, Express.js, Tailwind CSS, Material UI

Databases & Tools: MySQL, PostgreSQL, MongoDB, Prisma ORM, Firebase, Git, Docker, Vercel

Python Libraries: pandas, PyTorch, NumPy, Matplotlib
